Study Advert

An investigation into the effectiveness of Nurture Groups in supporting autistic children: A Scottish teachers' perspective

VOLUNTEERS WANTED

- Are you a teacher or a teaching assistant?
- Do you work in a primary school in Scotland?
- Do you or have you ever run a Nurture Group?
- Have any of these Nurture groups had an autistic child in them?

If you have answered yes to these questions – You may be interested in participating in a study investigating the effectiveness of nurture groups in supporting the wellbeing of autistic children.

My name is Christina Symeonidou I am a Master's in Autism student at the University of Strathclyde, Glasgow. The aim of the study is to investigate Scottish Teacher's experiences of running Nurture groups for autistic and non-autistic children. Participants will give their experiences of the effectiveness Nurture groups have in enhancing social skills and emotional well-being of autistic children compared to other vulnerable groups. You are invited to complete an online questionnaire that should take no longer than 25 minutes. If you are interested and would like to know more about the study, please click on the [LINK](#) or contact the Research (Christina Symeonidou) on:
